VISUALIZATION

Vega-Lite Assignment (Assignment 3)

Visualizing Tables using Vega-Lite

- Load the HW_III data.
- Create a Donut Chart showing Rep and Total. Add a tooltip. [1]
- Create a Streamgraph showing how the Total varied over time for each Item. Color by Item. [1]
- Create a Trellis Histogram of the Units for the Items. Add an overlay of the mean. [2]
- Now create 2 other visualizations to highlight others aspect of the data. Add an interaction with each. [3]
- Concatenate all the 5 views in a Multiview. [1]
- Submit the URL of a html file with the visualizations in Moodle.
- **Due: April 7th, 2026**
- **Marks: 8**
